DETAILED ACTION

Applicants' response, which included amendment to claim 1, filed on 6/18/2008, is made of record. Claims 1-6, 9 and 11-17 are pending.

Claims 12 1-7 were withdrawn by Applicants in response to a scope of enablement rejection. See paper dated 6/25/2007. As pointed out in the previous office action, these claims have to be cancelled before allowance of currently pending claims.

In view of applicants' response, the 112 rejections and 102 rejection made in the previous office action have been obviated. However, the following new ground of rejection is applied to claims 1-4 and 9.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Spickett et al. Chemistry & Industry, 937-939, 1951; CA 46: 48660, 1952. CAPLUS Abstract provided.

See two compounds shown in the Abstract.

Claims 1-4 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Curd et al., Journal of Chemical Society, 594-597, 1948.

See entire document. Especially see formula II, III, VI and VII. See pyridylamino compounds 2-7 shown in experimental section.

Allowable Subject Matter

Claim 11 is allowed. Claims 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion
